Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere.At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes.It was pure luck. I honestly had no idea what I was doing. Within a few weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky. My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they had worked so hard for. With their account at zero, they walk away from day trading.As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money.Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends.Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios.In How to Day Trade for a Living, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. "Into the maelstrom of unprecedented contemporary debates about immigrants in the United States, this perfectly timed book gives us a portrait of what the new immigrant experience in America is really like. Written as a "guide" for the newly arrived, and providing "practical information and advice," Roya Hakakian, an immigrant herself, reveals what those who settle here love about the country, what they miss about their homes, the cruelty of some Americans, and the unceasing generosity of others. She captures the texture of life in a new place in all its complexity, laying bare both its beauty and its darkness as she discusses race, sex, love, death, consumerism, and what it is like to be from a country that is in America's crosshairs. Her tenderly perceptive and surprisingly humorous account invites us to see ourselves as we appear to others, making it possible for us to rediscover our many American gifts through the perspective of the outsider"--

Do you want to start Day Trading but you don't know where to start? If you are already familiar with the stock market or the forex market and want to take your interactions with your chosen market to the next level, then day trading is a great choice. While it certainly has the potential to increase your earnings significantly, it also boasts an incredibly high skill ceiling with trades whose difference between success and failure is exceedingly slim. If you stumble in blindly you could be one of the countless masses that loses their shirt and washes out with their first trade or you could be one of the skilled few that strikes it rich practically overnight. The dramatic learning curve is what Day Trading: A Complete Beginner's Guide to Start Day Trading has been written to dull, it discusses everything you need to know in order to get started day trading as quickly and effectively as possible. The act of day trading is one that is hotly debated these days, simply because like many ways of making large amounts of money in short periods of time it is easy for the unformed to jump in blindly and lose their shirts before they have even properly gotten started. The truth of the matter is that day trading is like any other type of investment, never without risk but certainly far from random. Unlike traditional investing, day trading is much more of an active full time job rather than a relatively passive way to make extra money on the side. If you hope to succeed in the long term when it comes to day trading, then you need to be willing to put in the time and effort to be successful day in and day out.What this means is that even if you are confident when it comes to picking stocks or forex pairs, the lessons that you have learned over the years no longer apply. Day trading is its own beast entirely and that comes with its own set of strengths as well as weaknesses that you need to learn to overcome with the details found inside this book. Some of the topics that we will explore in this guidebook include: Pros and Cons to help determine if Day Trading is for you The basics of Day Trading Characteristics of a successful day trader How to perform fundamental analysis How to do technical analysis Day Trading FAQ outlining answers to burning questions of new traders Momentum Trading strategies in the Stock Market & Forex Market Some of the best tips and tricks that a beginner can use to start Day Trading today You will also learn about the specific considerations you will need to keep in mind when creating your own personalized trading plan to ensure you maximize your successful trade percentage as quickly as possible.
