The Product Owner role in Agile is not well understood and it can be confusing to understand how it relates to a typical project management role in a traditional, plan-driven environment. In my opinion, the Agile Product Owner role is actually a hybrid of some elements of a Product Manager role and some elements of a Project

# Development

# Access Free Agile Product Manager role.

## ~~What Is the Agile Product Owner Role~~

The product owner is a role on a product development team responsible for managing the product backlog in order to achieve the desired outcome that a product development team seeks to accomplish. Key

# Development

# Access Free Agile Product

activities to accomplish this include: Ensure transparency into the upcoming work of the product development team.

~~What is a Product Owner? | Agile Alliance~~

In agile software development, product management is about guiding a product through multiple

*Page 21/37*

# Development

# Access Free Agile Product

iterations. Since agile programs are more fluid than traditional approaches, agile

product management is a more flexible approach.

One of the core concepts in agile is that the scope of a project is fluid, while resources stay the same.

~~What is product management? | Atlassian Agile Coach~~

*Page 22/37*

# Development

# Access Free Agile Product

Martin Eriksson, product leader extraordinaire and founder of ProductTank, initially summed up

product management in a simple Venn diagram that sits the product manager at the

intersection of business, technology, and user experience. Fifteen years ago, Ben Horowitz, CEO

of Opsware, called the product manager the “
