The Big A's gorgeous climate means mild ... raw and paved trails like the BeltLine and Silver Comet, and the wide, chill- or thrilled-filled (depending on your chosen activity) Chattahoochee ...

More than 150 of the world's best cocktails ever invented, with easy instructions on mixing and serving. All the classics are here - the Martinis, Manhattans, and Margaritas - plus tons of other delicious and iconic drinks, from the Grass Skirt to the Rusty Nail, from the Black Russian to the White Lady, from the Little Devil to the Fallen Angel. Packed with beautiful photography, this book has a huge range to suit whatever's in your drink cabinet: cocktails built around vodka, whiskey, rum, gin, brandy, tequila and champagne! There are even some delicious non-alcohol variants.

At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.

Describes troubleshooting and repair techniques for electric motors, heating elements, refrigerators, washers, dryers, ranges, dishwashers, airconditioners, and hot water heaters

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

A definitive how-to guide to the complex environmental issues of the twenty-first century offers practical solutions to the difficult choices of everyday living to promote an eco-friendly lifestyle, covering such issues as grocery shopping, house cleaning, travel, work, and investing, while offering information and simple changes that can transform the planet's environmental health. Original. 20,000 first printing.

The Engineers' Metric Data Manual and Buyers' Guide is a manual and guide for the British engineering industry in the period of transition from Imperial to metric sizes. This material begins with the abbreviated history and use of the S.I. system. A guide on using the manual and a suggested component coding system for adoption by companies for internal metric use are also explained. This book also presents design data and conversion tables, as well as data sheet for specific parts of the whole engineering design, including fasteners, bearings, bushes, machine tools, fluid sealing, and coupling systems. This book will be valuable to engineers in such transition and will help prevent a serious and avoidable waste of skilled engineering effort.

"A make-ahead freezer cookbook with 100 recipes from a James Beard Award-winning chef"--

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.
