of conventional die casting, and potential defects unique to high integrity die casting processes. Also featured are methods for minimizing porosity, reducing cost by design, practical applied statistical process control techniques, designing for manufacturability, and containment methods for potential processing defects. Several chapters present detailed real-world examples illustrating the broad range of applications possible using high integrity die casting processes. Included with this book is a CD-ROM containing PowerPoint(r) presentations for each chapter. These presentations can be used for training purposes in conjunction with numerous study questions designed to practically apply the content of the book to real-world situations. Selected PowerPoint(r) slides can be used to support engineering proposals, marketing presentations, or customer education seminars. High Integrity Die Casting Processes is a valuable reference for both component producers and component users alike. Process engineers, tool designers, manufacturing engineers, production managers, and machine operators will acquire a better understanding of these advanced die casting processes to optimize manufacturing and improve product quality. Component designers, product engineers, purchasing agents, buyers, supplier quality engineers, and project managers will gain insight into these processes and develop superior products by design.

be a terrifying process. Put the wrong actor in your project and you're sunk. How do you find the right person? ... if you're working with Nancy Bishop you know you're in good, accomplished hands, whether you're a director or an actor. " Neil Burger, Director of *The Illusionist* Why is it that so many good actors don't perform well at castings? *Secrets from the Casting Couch* gives practical advice for actors, written from a casting director's point of view, teaching the craft of film casting in front of camera. It shows how actors can work with today's internet technologies to get cast and features advice and actual exercises that achieve results in the casting studio. Emmy-award nominated casting director Nancy Bishop C.S.A., has developed a successful approach through many years experience of working in the casting studio. The author also runs internationally recognised master classes throughout Europe and the US and is the head of the Prague Film School Acting Department.

First Time in Print Updated and expanded To win a role in a movie or on network or cable TV, you must make a strong first impression in your brief, crucial audition—and the first person you have to impress is the casting director. In *How to Audition On Camera*, Casting Director Sharon Bialy answers the twenty-five questions actors ask most frequently about how to nail an audition. What is the casting director looking for? If you mess up, can you start over? What is the most common mistake experienced actors make? Should you audition off book or can you look at the page? Should you dress in character? How much can you improvise? Actors—both novice and professional—are often misled by myths and outdated prescriptions. This guide replaces such misinformation with concise and accurate advice from someone who is in the room helping to make the decision on who gets the job. Bialy gets readers started
