Michael Hannan and John Freeman began one of organization theory's more acrimonious debates. Borrowing heavily from the biological literature on population ecology, Harman and Freeman argue that macrosocial processes play a major role in determining organizational success or failure, more so than managerial action...

Sacred Ecology examines bodies of knowledge held by indigenous and other rural peoples around the world, and asks how we can learn from this knowledge and ways of knowing. Berkes explores the importance of local and indigenous knowledge as a complement to scientific ecology, and its cultural and political significance for indigenous groups themselves.
