"*End Zone*," Don DeLillo's second novel, isn't so much DeLillo primer as it is like a few strokes of some of the themes DeLillo might (and in some cases will) touch on later. It's definitely not his greatest work and if you're new to his stuff I'd point you in the direction of something like "*Libra*" or "*White Noise*," both of which came later in DeLillo's career and (for me) pick apart more interesting subjects.
