Wanted: Dating coach to help hot nerd win back the woman of his dreams... Picture this - I ' m ready to win back the love of my life, and I ' m going big this time. We ' re talking boom box, sing her name in the rain, let the whole damn neighborhood know I'm good and ready this time around. After all, if you're going to grand gesture the ever-loving hell out of a second chance, you need to pull out all the stops. There ' s only one little problem. My college girlfriend isn't the one who shows up when I play my "I'll do anything to win you back" tune. The woman who flings open the second-floor window tells me my ex doesn ' t live here anymore. But she'll help me win her back. Anything for romance, anything for a guy so willing to go big for love. And that's what I want at first. Until I get to know my new " romance coach " and discover she ' s funny, clever, and keeps me on my toes. And boy, do I ever need that. Now I don't want to win anyone else ' s heart. I want the woman who's been helping me all along. Trouble is - she thinks I'm in love with someone else, and when we take off on a road trip, everything I think I know about women is about to be unzipped and turned inside out. *Unzipped is a standalone spinoff in the Lucky in Love series of standalones*

In 1892, the grisly murders of Whitechapel prostitutes four years earlier by a killer dubbed Jack the Ripper remain a terrifying enigma. And in a packed Old Bailey courtroom, Superintendent Thomas Pitt's testimony causes distinguished soldier John Adinett to be sentenced to hang for the inexplicable murder of a friend. Instead of being praised for his key testimony, Pitt is removed from his station command and transferred to Whitechapel, one of the East End's most dangerous slums. There he must work undercover investigating alleged anarchist plots. Among his few allies are his clever wife, Charlotte, and intrepid Gracie, the maid who can travel unremarked in Whitechapel. But none of them anticipate the horrors to be revealed.

Fundamentals of Marketing provides a sound appreciation of the fundamentals of the theory and practice of marketing. Using case studies drawn from a cross section of sectors, in particular the banking, hospitality, retail and public service sectors this textbook critically evaluates the effectiveness of different marketing strategies and approaches. Exploring the principles of marketing this volume engages the reader, not only in theory but also in practice, using a broad range of real-life case studies such as Coca Cola, Apple, FCUK, Virgin, Amazon.com, Barnes and Noble, Dyno Rod and New Zealand wool. The text analyzes the marketing mix: product development, pricing, promotion (and communications marketing) and place (channels of distribution). It also emphasizes the role of Marketing Information Systems (MIS) using internal reporting, marketing intelligence and marketing research including the contribution from marketing research agencies and reviews the role of technology, e-commerce and the Internet in supporting successful marketing. Featuring a support website that provides student and lecturer resources, Fundamentals of Marketing conveys the main principles of marketing in a challenging yet accessible manner and provides the reader with insights into the workings of marketing today.
