The hard-hitting and provocative first book from the fastest-rising conservative voice in the country Sean Hannity is the hottest phenomenon in TV and talk radio today. His gutsy, take-no-prisoners interviews and commentary on the Fox News Channel ' s Hannity & Colmes has made him one of the network ' s most popular

personalities. And his ascendance to the top of the talk radio world with ABC Radio 's The Sean Hannity Show has won him a huge and devoted conservative following, and ensured his place alongside Rush Limbaugh and Bill O ' Reilly as one of the country ' s most influential commentators. Now, in Let Freedom Ring, Sean Hannity offers a survey of the world—political, social, and cultural—as he sees it. Drawing on stories from his own life, and on the inspiration of political figures like Ronald Reagan and George W. Bush, he recounts the experiences that have shaped his perspective on the dramatic issues that face America today: • Terrorism and National Security • The Economy • Liberal Media Bias • Education • Faith, Character, and the Family As America meets the challenges of the post-9/11 world—abroad and at home—Sean Hannity ' s position is clear: “ We are engaged in a war of ideas. And we must win. Civilization itself is at stake. ”

#1 NEW YORK TIMES BESTSELLER America ' s top-rated cable news host offers his first book in over ten years: a look at America ' s fight against those who would reverse our tradition of freedom. America is great for a reason. Built on principles of freedom, rugged individualism, and self-sufficiency, no country has ever accumulated more power and wealth, abused it less, or used that power more to advance the human condition. And yet, as America blossomed, leftwing radicalism and resentment festered beneath the surface, threatening to undermine democracy in the form of social justice warriors, the deep state, and compromised institutions like academia and the mainstream media. With the Democratic victory in 2020, we are now at risk for a big step toward full-blown socialism along with the economic dysfunction and social strife that are its hallmarks. With radical Democrats demanding the Green New Deal, socialized medicine, abortion on demand, open borders, abolishing the Electoral College, packing the Supreme Court, and an end to free speech, our great nation will be fundamentally transformed beyond recognition. Ronald Reagan once said, “ Freedom is but one generation away from

extinction, ” and his words have never rung truer. In *Live Free or Die*, Sean demonstrates why now is an All Hands on Deck moment to save the Republic.

Nearly three years have passed since that tragic day in September. Since then, our wounds have healed, but our senses and memories have dulled. At first, the nation rallied behind its leader. But by the time the confrontation with Iraq presented itself, our courage and moral certainty seemed to fade in the face of partisan bickering and posturing. Now the political left and the Democratic Party are trying to use the demanding aftermath of the war to exploit our national cause for their own political advantage. How could we allow ourselves to forget so soon? --from *Deliver Us from Evil* Sean Hannity's first blockbuster book, the New York Times bestseller *Let Freedom Ring*, cemented his place as the freshest and most compelling conservative voice in the country. As the host of the phenomenally successful Hannity & Colmes on the Fox News Channel and The Sean Hannity Show on ABC Radio, Hannity has won a wildly devoted fan base. Now he brings his plainspoken, take-no-prisoners style to the continuing War on Terror abroad -- and liberalism at home -- in *Deliver Us from Evil*. "Evil exists," Hannity asserts. "It is real, and it means to harm us." And in these pages he revisits the harsh lessons America has learned in confronting evil in the past and the present, to illuminate the course we must take in the future. Tracing a direct line from Adolf Hitler and Joseph Stalin through Saddam Hussein and Osama bin Laden, he reminds us of the courage and moral clarity of our great leaders. And he reveals how the disgraceful history of appeasement has reached forward from the days of Neville Chamberlain and Jimmy Carter to corrupt the unrepentant leftists of the modern Democratic Party -- from Howard Dean and John Kerry to Bill and Hillary Clinton. Americans face the ongoing war against terrorists and their state sponsors around the world, Sean Hannity reminds us that we must also cope with the continuing scourge of accommodation and cowardice at home. With his trademark blend of passion and hard-hitting commentary, he urges Americans to recognize the dangers of putting our faith in toothless "multilateralism" when the times call for decisive action. For only through strong defense of our freedoms, at home and around the world, can we preserve America's security and liberty in the dangerous twenty-first century.

Six-time New York Times bestselling author, FOX News star, and radio host Mark R. Levin “trounces the news media” (The Washington Times) in this timely and groundbreaking book demonstrating how the great tradition of American free press has degenerated into a standardless profession that has squandered the faith and trust of the public. *Unfreedom of the Press* is not just another book about the press. In “Levin’s finest work” (Breitbart), he shows how those entrusted with news reporting today are destroying freedom of the press from within—not through actions of government officials, but with its own abandonment of reportorial integrity and objective journalism. With the depth of historical background for which his books are renowned, Levin takes you on a journey through the early American patriot press, which proudly promoted the principles set forth in the Declaration of Independence and the Constitution. This is followed by the early decades of the Republic during which newspapers around the young country were open and transparent about their fierce allegiance to one political party or another. It was only at the start of the Progressive Era and the 20th century that the supposed “objectivity of the press” first surfaced, leaving us where we are today: with a partisan party-press overwhelmingly aligned with a political ideology but hypocritically engaged in a massive untruth as to its real nature.

SUMMARY of Sean Hannity's LIVE FREE OR DIE - America (and

the World) on the Brink Sean Hannity, the author of Live Free or Die America (And the World) On the Brink, is a self-proclaimed conservative writer, media personality, who is currently the host of Hannity on Fox News and the nationally syndicated radio program, The Sean Hannity Show, a Christian, who used his book to uncover and reveal the current events in the political scene towards the United States of America's forthcoming Presidential election. He is also widely known as the author of three New York Times bestsellers - Conservative Victory, Deliver Us from Evil and Let Freedom Ring. The author used the book to let Americans and readers to get the actual happenings and have a vigorous insight into the United States of America's political elements. His primary focus is on the heavy opposition and endless attacks on the administration and personality of President Donald Trump, majorly from the Democrats, Leftists, and Progressives. Again, the original work sought to display the conspiracies, collision, and politics in which the political and pull of power events is based, mainly between President Donald Trump, Democrats, and the Media. The author analyzed how power skirmish and eagerness of the Democrats to take over the presidency and oust Donald Trump started and deliberately grew all of a sudden over the period of President Trump's 4 years remarkable tenure, and how Donald Trump, in return, through his formidable polices and zeal to make America Great Again, completely outsmarted the Democrats and the media. A political battle that had led to a cycle of defamation, indictments, and counter-accusations from both sides of the political divide. He categorized his book into Ten Chapters and they include: 1) A Republic-If You Can Keep It 2) Welcome to Fantasyland: The Democrats' 2020 Agenda 3) Deep State I: Russian Collusion-The Hoax of the Century 4) Enemy of the People: The Hate-Trump Media Mob 5) Trump's Response to the Coronavirus and America's Great Comeback This book thoroughly delivers a comprehensive and well-explained dialogue and an overview of Sean Hannity's original work. This summary will help readers gain substantial knowledge of what the author meant by Live Free or Die: America (and the World) on the

Brink. Therefore, based on each chapter's key themes and overview, this book will strictly provide the readers with an adequate understanding of Donald Trump's Administration. Barack Obama and his radical team of self-professed socialists, fringe activists, and others are trying to remake the American way of life. They have used their new Democratic majority to launch an alarming assault on our capitalist system—while abandoning the war on terror, undermining our national security, and weakening our position in the eyes of our enemies. The "candidate of change" is threatening to change our country irreparably, and for the worse—if we don't act to stop him now. Sean Hannity has been sounding the alarms about Obama and his agenda from the start. Now—in his first new book in six years—he issues a stirring call to action. Hannity surveys all the major Obama players—from the president's affiliation with radical theology to his advisers' history of Marxist activism, repression of the media, support for leftist dictators, and worse. He exposes their resulting campaign to dismantle the American free-market system and forfeit our national sovereignty. But he draws on the examples of Ronald Reagan and the GOP's Contract with America to show how conservatives can unite behind this country's most cherished principles and act now to get America back on the right track—while we still can.

The march to the Trump presidency began in 1988, when Rush Limbaugh went national. Brian Rosenwald charts the transformation of AM radio entertainers into political kingmakers. By giving voice to the conservative base, they reshaped the Republican Party and fostered demand for a president who sounded as combative and hyperbolic as a

What Do All Christians Believe? For many people, words like doctrine and theology cause their eyes to glaze over, or they find them difficult to understand and struggle to see how they are relevant to daily life. But theology is far from boring—it is the study of God and should lead to awe and wonder as we better understand who God is and what he has done for us. In *Core Christianity*, author, pastor, and theologian Mike Horton tackles the essential and basic beliefs that all Christians share. What is “core” to the Christian faith? In addition to unpacking these beliefs in a way that is easy to understand, Horton shows why they matter to our lives today. This introduction to the basic doctrines of Christianity is a helpful guide by a respected theologian and a popular author, and it includes discussion questions for individual or group use. *Core Christianity* is perfect for those who are new to the faith, as well as those who have an interest in deepening in their understanding of what it means to be a follower of Jesus Christ.
